Organize, share, and connect with your teams to always have the latest news and standardized education.

SmartTEAM™ LMS — Training Education Awareness Methodology

SmartTEAM™ LMS is our customizable and proprietary Learning Management System (LMS) based on our 25 years of online education experience. Our targeted knowledge transfer initiative aims to cultivate an ecosystem to train professionals working in all environments from healthcare to hotels and everything in between, including mission critical areas.

In our connected world, operating 24/7, downtime and lack of knowledge transfer in any organization and industry reduces business resiliency and operational efficiency. Overall, 65% of facility failures that cause downtime can be attributed to human error. SmartTEAM™ LMS standardizes operational practices and behaviors throughout an enterprise. This in turn improves safety and reduces operational risk.

SmartTEAM™ LMS is your total knowledge solution and customizable educational repository portal. Our LMS standardizes learning throughout an enterprise to foster culture in a collaborative environment on any device anywhere. Unite your company with SmartTEAM™'s scalable and robust infrastructure. Teams of any sizes, including those with more than 1000 users, can collaborate in real time. SmartTEAM™'s framework grows and adapts with to your teams evolving industry requirements. Easily integrate SmartTEAM™ LMS within 30 days and gain greater freedom and control to customize, brand, and configure your learning environment to your enterprise needs.

Populate your corporate handbook for collaborative learning available on any device
